

Get a free field guide to “good bugs”! Find out about healthy, easy-care gardening!

Visit a Home Depot or Lowe’s store in King County on Saturdays during the month of April 2002 for a free photo field guide to beneficial insects. Learn about which of the insects in your yard are actually helpful and how to recognize and attract them.

Trained volunteers will be available from 10:30 to 1:30 to answer your questions about healthy gardening practices, such as:

- Why and how to improve your soil
- Plants that resist insects and diseases
- Ways to have a healthy, natural lawn
- Less-toxic ways to manage pests

The stores will also offer discounts on environmentally friendly yard care items, such as mulching mowers, weed pullers, insecticidal soap, organic fertilizer and compost.

Here is the schedule for volunteers in the stores.
